Many students have their own hobbies. Some students think we shouldn't have some hobbies. Some hobbies can affect your grade. Some parents worry about our study. If we give up the hobbies and study all day and night, we get bored. I think we should have our own hobbies. For example, when we are tired, we can play basketball or listen to the music. From Monday until Friday most people are busy working or studying, but in the evenings and off weekends they are free to relax and enjoy themselves. Some watch television or go to the movies; others participate in sports. It depends on individual interests. We should have some hobbies. They can make us happy.
